

DAS Program/Service Categories Proposed Categorization for FY2009

This chart shows the location of current agency services within one of the three categories within DAS for FY2007/08 and the proposed category for FY2009. The categories are:

- **Leadership functions** are those services related to policy and standards development that will be funded through a general appropriation. It is appropriate where standardization is required and the ultimate customer is the taxpayer.
- Utilities are those services for which a monopoly structure makes sense due to economies of scale. Customers choose the amount of service purchased but must buy from a single source. Utilities will be funded by an internal service revolving fund.
- Marketplace services are those services that may be purchased in a competitive environment. Customers may choose to buy these services from any available vendor. These services are funded through enterprise revolving funds.
